

As of 11:30am Friday, April 17th, we are still planning on holding the tournament. From what we have seen, the weather is supposed to pass through today and improve throughout the night and into tomorrow. If it is still raining in the morning, there is a good chance the tournament will still go on as planned with the possibility of a short delay if the fields are still in playing condition. Please continue to monitor our weather hotline at 972-355-3788 ext 2 and then press 2 for updates. Any changes will also be posted here.
